Guidelines for Approval of Credits for Practice I on CMHA (Presentation at domestic conferences)

(Purpose)

Article 1

These guidelines prescribe the matters regarding the approval of credits for Practice I on CMHA (hereinafter referred to as “Practice I”) offered by the Educational Program for Extension of Healthy Life Expectancy of the Graduate School of Medical Sciences.

(Overview of Practice I)

Article 2

In Practice I, students are required to attend academic conferences, lectures, symposiums, and other academic meetings organized by universities and other academia (excluding those organized by the private sector) held in Japan (hereinafter referred to as “academic conferences”), and credits are granted for oral or poster presentations at academic conferences.

(The number of credits to be granted)

Article 3

In Practice I, a maximum of two (2) credits shall be granted according to the type of academic conference at which the presentation is made, as listed below. However, the judgment as to which academic conferences credits can be granted for shall be made by the chief instructor of Practice I.

- (1) A maximum of two (2) credits is allowed for each oral or poster presentation at a domestic academic conference as the first author of the presentation abstract.
- (2) For presentations at regional conferences (regional meetings, etc.), the maximum number of credits is one (1) per attendance with oral or poster presentation as the first author of the presentation abstract.

2 The criteria for the number of credits to be granted shall be as listed in the following table according to the number of days of the academic conferences mentioned in each item of the preceding paragraph.

Academic conference	The number of credits to be granted	Examples of credits to be granted
National	One third (1/3) of one credit is granted for each half day (approximately 5 hours) of the conference period.	• 1-day conference: 2/3 • 2-day conference: 4/3 • 3 or more-day conference: 2
Regional	One sixth (1/6) of one credit is granted for each half day (approximately 5 hours) of the conference period.	• 1-day conference: 1/3 • 2-day conference: 2/3 • 3 or more-day conference: 1

*Remarks

(a) In principle, the stipulated maximum number of credits shall be granted for three days of attendance at an academic conference. The rationale for this is that 15 hours of class attendance in lectures and seminar courses at the Graduate School of Medical Sciences is defined as one credit and that as the regular program of academic conferences is from 8:00 a.m. to around 6:00 p.m., three days of attendance at an academic conference is equivalent

to approximately 30 hours of class attendance.

(b) When the academic conference is held online only, the number of days actually attended online should be counted for credits.

(c) When an academic conference is held as a hybrid of on-site and online meeting, and there is a period of streaming service, such period should not be included in the number of days of the conference, but only the number of days held on-site should be counted for credits.

(d) The number of credits for attendance at academic conferences that do not conform to the above-mentioned rules shall be determined by the chief instructor of Practice I.
