Type of Class(授業の形態) Lecture									
Teaching Method(授業の方法)			PowerPoint will be used in the lectures, and active participation in the discussion is encouraged. Extra classes or video lectures are considered for those who are regularly absent for unavoidable reasons. (Before starting this course students will be informed of the individual lecture style of instructors in detail.)						
Course Goals(授業の目的)			The aim of this lecture series "Special Lecture I on Infectious Diseases and AIDS" is to learn following topics important for basic and clinical research of infectious diseases: (1) interaction between pathogen and host response, (2) molecular pathogenesis of viral infection, (3) immune control and vaccine research, (4) management of nosocomial/opportunistic infection, (5) diagnosis and treatment of emerging/re-emerging infectious diseases, (6) pathogenesis and treatment of infectious diseases.						
Course Learning goals(学修 目標)			[A level (A水準)] Students will learn following topics important for basic and clinical research of infectious diseases. Students will learn following topics important for basic and clinical research of infectious diseases. (1) interaction between pathogen and host response,(2) molecular pathogenesis of viral infection, (3) immune control and vaccine research, (4) management of nosocomial/opportunistic infection, (5) diagnosis and treatment of emerging/reemerging infectious diseases, (6) Pathogenesis and treatment of HIV-1 infection. [C level (C水準)] Understanding for the following points. (1) interaction between pathogen and host response (2) molecular pathogenesis of viral infection (3) immune control and vaccine research (4) management of nosocomial/opportunistic infection (5) diagnosis and treatment of emerging/re-emerging infectious diseases (6) Pathogenesis and treatment of HIV-1 infection						
Course Outline(授業の概要)			The course addresses the introduction (bacteriology, virology) and particulars of various pathogenic organisms (including gram-positive and negative bacteria, a DNA or RNA viruses) focusing on topics of pathogenesis, control and prevention of infectious diseases and emerging and reemerging infectious diseases. The course addresses protective immunity of host against infectious diseases including HIV-1 infection. Especially, recent topics such as the mechanism of T-cell recognition of the viral antigens, differentiation of immune cells from hematopoietic stem cells and the strategy for the development of effective vaccine against HIV-1 infection will be discussed.						
				Details for Individual Classes(各回の	授業内]容)			
No.(回)	Date(月	目)		Class Theme(授業テーマ)		Brio	ef Outline of Cl	ass(内容概略)	
1			Terumasa II	keda [eE-O]	Retr	ovirus life cy	/cle		
2			Tomohiro S	awa [eE-O]	Bact	erial infection	on and pathoge	enesis	
3			Hiroyuki Os	hiumi 【eE-O】	Inna	te immune i	responses to pa	athogens	
4			Chihiro Mo	tozono [eE-O]	Cellu	ular immune	responses to p	oathogens	
5			Takeo Kuwa	ata [eE-O]	Hum	noral immun	e responses to	pathogens	
6	06/3	80	5th period(16:45~18:15) Kazuaki Monde【eE-O】	Ada	ptive evoluti	on of viral gene	es	
7	07/0)7	5th period(O]	16:45~18:15) Jyunichirou Yasunaga 【eE-	Eme	rging/re-em	erging infectio	us diseases	
8			Shinya Suzu	ı [eE-O]	Retr	oviruses-ho	st interaction		
9			Yorifumi Sa	to [eE-O]	Retr	oviral infect	ions and latenc	y	
10			Masanori lk	eda 【eE-O】	Mole	ecular patho	genesis of hep	atitis viruses	
11			Yasuhito Ta	naka [eE-O]	Нер	atitis viruses	and Liver cand	cer

13			Seiji Okada	[eE-O]	Anin	nal model re	search in infec	tious diseases	
14			Hirotaka Ma	atsui [eE-O]	Role	s of laborate	ory medicine fo	r infectious diseases	
15			Hirotomo N	akata 【eE-O】	Nos	ocomial/opp	oortunistic infe	ction	
Estimated out-of-class study time			• This course consists of content that requires hours (90 hours) of study. Since the class is 30 hours (2h x 15 frames), 60 hours of pre- and post-study (including assignments) is necessary to understand the class. It is necessary to deepen.						
Require	ed Textbook ト)	(テキス		tbooks are not specified, and handouts will be distributed.					
Read	ing List(参考	文献)	"Atlas of A "Infectious	IDS" edited by Gerald L. Mandell and Donr s Diseases and Medical Microbiology" 2nd	na Mile Editio	dvan. Curre on, Abraham	nt Medicine, In I. Braude et al.	c. Philadelphia, 2001. , W.B. Saunders Company	

Enrollment Conditions(履修 条件)	Have basic knowledge concerning what is taught in this course.		
Assessment Methods and Criteria(評価方法・基準)	This class consisted of a series of omnibus lectures by 15 lecturers as listed in the schedule. Evaluation will be done based on active class participation, examination test and/or report for subjects by each lecturer. In order to get credits students have to take more than 2/3 lectures. Grading will be based on the average of top 10 scores among ones obtained by the student.		
Language Used in Instruction(使用言語)	English		
Textbook/Material Language(教科書・資料の言語)	Combination of Japanese and English		
Course Based on Practical Work Experience(実務経験 を活かした授業)	Not applicable
